⚡ NEXT-GENERATION RESTAURANT PLATFORM

Nothing Gets Lost Between the Table, Kitchen & Cashier.

Kafei is the modern, cloud-native restaurant billing software and floor operations platform designed for dine-in cafes, busy restaurants, bars, and multi-outlet chains. It eliminates expensive proprietary hardware, 3rd-party commissions, and lost kitchen tickets by unifying your entire service onto one lightning-fast system.

The 4-Screen Unified Floor Architecture

Every participant in your dining room sees exactly what they need in real time.

1. AT THE TABLE

Contactless Table QR Ordering

Guests point their phone camera at the print-ready table standee. The digital menu opens immediately in their browser with high-res photos and customizable variants.

- ✓ 0 apps for customers to download
- ✓ Live kitchen cooking countdown timer
- ✓ Direct UPI QR payment with 0% commission

2. IN THE KITCHEN

Interactive Kitchen Display (KDS)

Chefs and kitchen expeditors view incoming tickets color-coded by urgency. Paperless, grease-free, and organized by prep station.

- ✓ Cooking countdown timers per dish
- ✓ Bold allergen and special cooking notes
- ✓ 1-tap bump bar to notify floor staff
- ✓ Course pacing (Starters → Mains → Desserts)

- ✓ Multiple order rounds join the same table bill

3. ON THE FLOOR

Waiter Handheld Terminal

Floor staff take orders at the table, punch in custom requests, and check live table status from their own existing Android or iOS smartphones.

- ✓ Instant table status sync across rooms
- ✓ Add items or modify active table sessions
- ✓ No expensive proprietary handhelds to lease
- ✓ Table handover and section management

4. AT THE COUNTER

Cashier POS & Manager Command

The central point-of-sale terminal for split bills, cash/card/UPI settlements, anti-theft void approvals, recipe inventory, and 80mm thermal receipt printing.

- ✓ Fast 80mm & 58mm browser thermal printing
- ✓ Itemized GST tax breakouts & compliance
- ✓ Anti-theft manager approval for voids & refunds
- ✓ Recipe-level automatic inventory deduction

How Kafei Works During a Live Dinner Service

From the moment a guest sits down until the bill is settled, the workflow is automated.

STEP 01

Scan & Browse

Guest scans the table QR. The visual menu loads instantly with dietary tags and dish photos.

STEP 02

Instant KOT
Route

Order fires directly to the Kitchen KDS. Chef taps "Start Cooking" and the guest sees a live timer.

STEP 03

Plated & Served

Chef bumps the order to "Ready". Waiter terminal alerts floor staff to serve hot dishes.

STEP 04

Settle & Clear

Guest pays via UPI QR or counter. Cashier prints 80mm GST receipt; table resets instantly.

Why Kafei Outperforms Legacy POS Systems

See how modern cloud architecture saves money and eliminates operational bottlenecks.

Feature / Capability	Kafei 2.0 (Cloud Platform)	Legacy POS (Petpooja / Posist)
Hardware Requirements	Zero (Any phone, tablet, laptop)	Expensive proprietary terminals
Sales Commission	0% Flat (No cuts on orders)	Hidden transaction % & setup fees
Table QR Dine-in Ordering	Included (Zero app download)	Add-on charge or missing
Kitchen Display System (KDS)	Included & Color-Coded	Costly extra screen license
Thermal Receipt Printing	80mm & 58mm direct from browser	Requires local desktop drivers
Anti-Theft Void Approvals	Mandatory Reason + Manager Queue	Loose password overrides
Recipe Inventory Depletion	Live deduction as dishes leave pass	End-of-day manual tally
Setup Time	5 Minutes (Instant online)	2-5 days of technician setup

? Frequently Asked Questions

Everything you need to know about setting up Kafei.

Do I need to buy expensive POS computers?

No! Kafei runs on any device with a browser: iPads, Android tablets, laptops, counter PCs, and staff smartphones. You save ₹50,000+ in upfront hardware costs.

Can I print 80mm GST thermal receipts?

Yes. Kafei generates standard 80mm and 58mm thermal receipts with full itemized GST breakdown, restaurant branding, and table tokens directly to any USB/Bluetooth/LAN printer.

How does the UPI QR payment work?

Upload your UPI QR in Settings. When customers view the bill on their phone, your QR is displayed with the exact total for 0% commission direct bank settlement.

Can I manage multiple dining areas or branches?

Yes. You can manage indoor, patio, bar, and rooftop areas, as well as multiple restaurant outlets under a single unified owner login.
